Mr. Howland Wood,
c/o American Numismatic Society,
Broadway & 156th St.,
New York City, N.Y.

Dear Sir:

Some of our friends may wonder why we should be manufacturing and selling holders for coins collected by those who make a hobby of it. This letter will throw a bit of light on that subject.

Our President, Mr. Beistle, has been an ardent coin collector for a good many years past, and his specialty being half dollars, he collected one of the most complete collections of that sort in this country. Because of his handling and keeping thousands of coins, many of which were extremely rare, his mind took a practical turn and invented through perserverance and patient trial, the Unique Coin Holders. The acclaim which these holders have won wherever a collector has tried them out and found them a practical utility, is the finest sort of tribute to his effort.

In making his collection, Mr. Beistle made a very minute record of each different die - and he discovered many varieties never before listed. This is now being published privately in book form and offered to our friends. The edition will be extremely limited and the price is figured to just cover the cost.

In order to distribute these where they will be appreciated and do the most good, we are offering prior to publication, a special discount of 10% for all orders received before June 15th. It is suggested that your remittance be sent with your order so that book-keeping expense may be eliminated and so that your copy may be sent as soon as the book is published. Several prominent numismatists who have seen the copy for this book, predict the small edition will be oversold and copies will be sought by collectors for reference at a premium.

Very truly yours,
THE BEISTLE COMPANY.

Dear Mr. Wood:

I am just now finishing up the copy on my book, and I am enclosing copy for my Numismatic Primer. #8, I would like if you would go over this carefully and see if there is anything you can add to it that will be of any help in making it more complete.

I am also enclosing a short article on the making of dies as they were made prior to 1836. I would like to have you criticize this carefully, and if I am not correct do not hesitate to tell me, as this paper is entirely made up from deductions as found on coins.

I will be glad if you will let me have these papers returned at your earliest convenience, and oblige,

Very truly yours,

M. L. Beistle

Dear Mr. Wood:

I wrote you on the 23rd, asking you to look over some copy I sent you, and I would like very much if you would let me have this by return mail, as I am holding up this part of my book awaiting your reply. The balance of the copy is now all set in type, and my reason for writing you is so that we will not delay the publication.

I will appreciate very much if you will go over the copy sent, and make any criticism that you think is necessary.

Awaiting an early reply, I am

Dear Mr. Beistle:

Your letter of the 27th to Mr. Wood has been opened in his absence. He is in Boston because of a death in his wife's family and is expected to be on hand May 31st. I am writing that you may understand his failure to reply.

Very truly yours,

Secretary

Gentlemen:

We have just been asked by the Postoffice if we received an insured parcel post package "B13" from you bearing the date of May 31st. We are unable to tell them anything about it as we do not know what the package contained. I think it was sent to me. I do remember that a few days before that date you sent some printer's proof of diagram and so forth, to which I did not reply at once as I was away from the office, but which I later returned to you. Can you clear up this matter?

Yours very truly,

THE AMERICAN NUMISMATIC SOCIETY

Curator.

Gentlemen: Attention: Mr. Howland Wood

We have your letter of Oct. 9th, and the insured parcel post package the Post Office evidently refers to was a copy of Mr. Beistle's "Register of Half Dollar Die Varieties", which was sent under date of July 31st not May 31st.

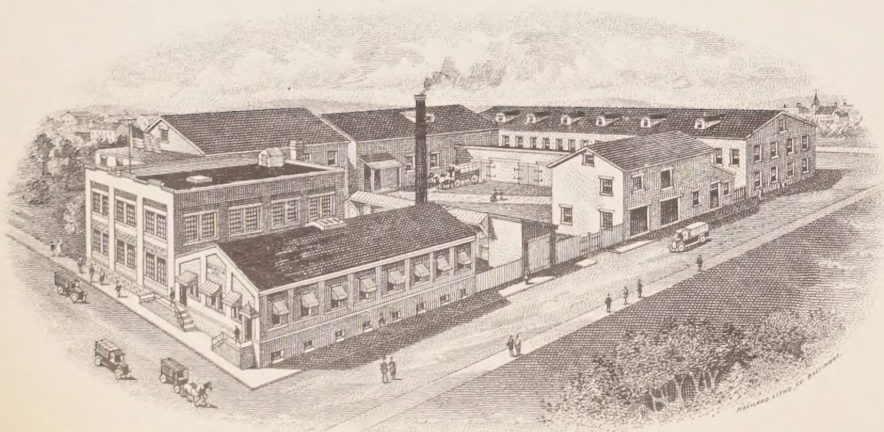

Trusting that this information is what you desire.
